## Tlačno stikalo standardno, galvanizirano jeklo, 10 - 70 bar

Kategorija: [Pressure switches standard type](#)  
Šifra: **103004RIE**

### Kratek opis

Pressure switch standard design, galvanised steel, Ambient temp. -25 °C to 85 °C, G 1/4, Setting range 10 - 70 bar, NC contact  
For liquid, non-corrosive and gaseous media. Easy to adjust, even under pressure.  
Can be integrated in any mounting position. Pressure adjustment by means of a hexagon-head screw.

### Tehnične Specifikacije

|                                   |                                          |
|-----------------------------------|------------------------------------------|
| Min. sobna temperatura [°C]       | -25                                      |
| Aplikacije                        | Air, hydraulic oil, oil emulsions, water |
| Električni priključek             | Tab connectors 2 x 6.3 x 0.8             |
| Ffunkcija                         | NC                                       |
| Material                          | Galvanised steel                         |
| Navoj                             | G 1/4                                    |
| Vrsta gradnje                     | Spring-loaded piston                     |
| Min. prilagoditveno območje [bar] | 10                                       |
| Preklopna napetost                | 42 V                                     |
| Max. območje nastavitve [bar]     | 70                                       |
| Max. sobna temperatura [°C]       | 85                                       |
| Preklopna frekvenca               | 200/min                                  |
