## Vklopni ventil »variobloc«, Velikost 1, G 1/4

Kategorija: [Start-up valves](#)  
Šifra: **100741RIE**

### Kratek opis

Start up valve »variobloc«, Size 1, G 1/4, Operating pressure 2 - 25 bar  
For slow pressure build-up in pneumatic systems, e.g. after an emergency stop.  
The valve opens to full flow at approximately 60% of the set operating pressure.  
The filling time can be set by turning the adjusting screw.  
Used in combination with multi-piece service units.

### Tehnične Specifikacije

|                             |                                                       |
|-----------------------------|-------------------------------------------------------|
| Merjenje pretoka            | At $P_1 = 6$ bar and pressure drop $\Delta p = 1$ bar |
| Navoj                       | G 1/4                                                 |
| Serijska                    | variobloc                                             |
| Velikost                    | 1                                                     |
| Min. obratovalni tlak [bar] | 2                                                     |
| Max. obratovalni tlak [bar] | 25                                                    |
| A [mm]                      | 48.0                                                  |
| B [mm]                      | 54.0                                                  |
